Internship Task-2 Submission Report

1. **Name & Email Id :**
   - Name : Sanagana Dharma Teja
   - Email ID : sanaganadharmateja9347@gmail.com
   - Contact No : +91 9618046554

2. **Task Title :** Landing Page of FCC Studios

3. **Task Description :**

    My task-2 is to develop a responsive Landing Page of FCC Studios YouTube Channel. I have used HTML and CSS to bring this design to life, ensuring responsiveness across various devices.

4. **Steps Taken :**
   - First, I have open with new file.
   - I have used Document type of HTML `<!DOCTYPE html>`.
   - I have used Tags like `<html></html>,<body></body>,<main></main>,<h1></h1>,<p></p>,<img>.`
   - And I have used CSS to style the web page.
   - For example, I have used the font, color, size, padding, border, margin, width, height, text-align, background color, position etc.

5. **Challenges Faced :**

   I have faced challenges on both HTML & CSS. When I'm using the Image tag , it is taking time to load the image. When I'm styling the web page the Position of the page may not come properly.

6. Solutions Implemented :

```html

    height: 250px;
    margin-left: 250px;
}
.items{
    padding: 24px;
    display: flex;
    flex-direction: column;
    justify-content: space-between;
    font-size: larger;
}
.action{
    text-align: right;
    color: aqua;
}
strong{
    color: aqua;
```

```css
}
.action :hover{
    background-color:  rgb(58,58,58);
}
.back{
        background: linear-gradient(45deg, rgb(164, 202, 216), rgb(10, 128,
212));
        position: absolute;
        top: 3145px;
        height: 80px;
        width: 100%;
        padding: 0;
        display: flex;
        justify-content: center;
        list-style: none;
        margin: 0;
}
.about{
    height: 400px;
}
```

7. Learnings :

- ➢ All HTML documents must start with a document type declaration: <!DOCTYPE html>.
- ➢ The HTML document itself begins with <html> and ends with </html>.
- ➢ The visible part of the HTML document is between <body> and </body>.
- ➢ HTML headings are defined with the <h1> to <h6> tags.
- ➢ HTML paragraphs are defined with the <p> tag.
- ➢ HTML images are defined with the <img> tag. The source file (src), alternative text (alt), width, and height are provided as attributes. And the image tag doesn't require a closing tag.
- ➢ CSS is the language we use to style an HTML document.
- ➢ CSS describes how HTML elements should be displayed.

8. Project Update :

My task-2 is to develop a responsive Landing Page of FCC Studios YouTube Channel, which I had learned a lot of things from this Project, and this project has completed successfully.

Here is the link :
